EDUCATION

Adelaide University ***Jul 2024 – Jul 2026***
Master of Business Analytics · GPA 6.182 / 7.000 ***Adelaide, Australia***
Relevant courses: Predictive & Visual Analytics, Machine Learning, Finance & Accounting, Behavioural Economics, Statistical Modelling, Project Management, Chatbot & Text Analytics

Narsee Monjee Institute of Management Studies (NMIMS) ***Jul 2019 – Apr 2022***
Bachelor of Science in Mathematics (Honours) ***Mumbai, India***
Relevant courses: Probability, Theory of Optimisation, Calculus, Differential Equations, Algebra, Statistics and Machine Learning, Statistical and Deep Learning Approaches, Number Theory

EXPERIENCE

Associate Data Scientist ***Jun 2022 – Oct 2023***
Care Ratings, Credit Rating Company ***Mumbai, India***
- Led validation of 19 financial rating models through 10+ statistical tests each, enhancing model reliability by 30% and ensuring error-free credit ratings for the year.
- Built interactive Power BI reports and dashboards to track performance, attrition and recognition KPIs, improving business performance and data visibility across 5+ business units while reducing manual reporting by 80–90%.
- Constructed 2 ETL pipelines using Python and SQL to ingest and publish daily financial data, saving analysts 10+ hours per week and significantly reducing manual processing time.
- Acted as Point of Contact for vendor-driven automation projects, coordinating cross-team integration with external vendors and improving data consistency by 25%.
- Automated monthly sector newsletters distributed to senior stakeholders across the CareEdge Group, streamlining communications and reducing manual effort.

Skills: Python · SQL · Power BI · ETL · Data Validation · Statistical Testing · Stakeholder Communication

Game Day Analyst ***Oct 2025 – Mar 2026***
Port Adelaide Cricket Club ***Adelaide, SA***
- Captured ball-by-ball match data across home fixtures, coding delivery-level detail (line, length, shot type, dismissal) into a structured dataset for the squad.
- Developed batting insights reports from that data using Python and Tableau, translating raw match data into actionable recommendations for performance review and match preparation.

Skills: Python · pandas · Tableau · Cricket Analytics · Sports Performance Reporting · Data Storytelling

Food & Beverage Attendant ***Sep 2026 – Present***
Findon Hotel (ALH Hotels / Endeavour Group) ***Adelaide, SA***
- Casual front-of-house role alongside job search, delivering customer service in a fast-paced hotel bistro, operating POS systems and working effectively in a team under pressure.

Skills: Customer Service · POS Systems · Teamwork · Working Under Pressure · Time Management

ADDITIONAL INFORMATION

Tech Skills: Python (pandas, NumPy, scikit-learn, matplotlib, seaborn) · R · SQL · Power BI (DAX, data modelling) · Tableau · Google Looker Studio · Excel (advanced) · ETL pipelines · GitHub · Jupyter · VS Code · DBeaver

Projects: 1) BBL Win Probability Model: XGBoost model estimating ball-by-ball win probability from 647 Big Bash matches (2011–2026); chronological train/test split so evaluation is on unseen future matches (0.73 accuracy, 0.82 ROC-AUC); calibration analysis and per-delivery leverage scoring. Deployed as a FastAPI service with a browser frontend: bbl-win-probability.onrender.com

2) SA Sheffield Shield Analytics 2025/26: End-to-end Python pipeline processing Cricsheet ball-by-ball JSON data into structured CSVs; feature engineering (phase classification, partnership IDs, collapse detection); 3 Tableau dashboards; tactical match reports. Shared with SACA performance analysts.

Languages: English (advanced) · Hindi (fluent) · Marathi (fluent) · PTE 90/90 (April 2026)

Achievements: Multiple-time National Champion (India), Rubik's Clock - World Cubing Association
